

CHEMICAL SAFETY

**Never mix
cleaning chemicals**

NEVER MIX

cleaning chemicals

Mixing products can release dangerous gases.

Bleach + acidic cleaner

Bleach + ammonia cleaner

Both can give off harmful gases.

Use one product as directed

Follow the label and COSHH assessment. Use the specified dilution, ventilation and protective equipment. Keep chemicals in suitable, clearly labelled containers, away from food.

If products mix or fumes develop: stop, move to fresh air and keep others away. Tell the supervisor. For serious breathing difficulty or collapse, call 999.
